- Able to work independently
- Highly adaptable
- Responsible and reliable

PERSONAL INTERESTS

- Reading
- Drums
- Fitness and combat sport

LANGUAGES

English: Professional proficiency (B2–C1)

PROFESSIONAL SUMMARY

Full-stack developer specialized in Symfony as well as modern frontend technologies such as React and Next.js.

I design and develop scalable, end-to-end web applications, including SaaS platforms, APIs, robust backend systems, and high-performance, user-friendly frontends. My experience covers the full development lifecycle: architecture, database design, frontend integration, UI/UX, and deployment. I build dynamic and modern interfaces using TypeScript, React, Next.js, and Tailwind CSS.

Recognized for my autonomy and attention to detail, I am able to quickly understand business needs and deliver clean, maintainable, and scalable code.

Proactive and analytical, I provide effective technical solutions while continuously improving application performance and user experience. I also have experience writing clear technical documentation and user guides.

EXPERIENCES

Full-stack developer, 08/2023 - Present
Home - Limoges - Freelance

- Managed the full development lifecycle: requirements analysis, architecture, database design, API development, backend features, frontend integration, and UI/UX design.
